DIGITAL GOVERNMENT AFRICA SUMMIT, KAMPALA, UGANDA, OCTOBER 2026

On behalf of the Government of the Republic of Uganda, we are pleased to confirm our official patronage of the Digital Government Africa (DGA) Summit 2026. This is a national event, and the National Information Technology Authority – Uganda (NITA-U), under the Ministry of ICT and National Guidance, will take a pivotal role in spearheading the summit.

This patronage further extends to the endorsement and full participation of all government entities, with the commitment of the Cabinet of the Republic of Uganda. Respective ministries will personally invite their counterpart ministers and senior officials from across Africa to participate in this high-level, meetings-based event.

The purpose of the DGA Summit is to bring African governments together with industry partners and leading solution providers to ensure a better understanding of digital systems and the technologies delivering fundamental change to our world. This is a meetings-based event allowing for public sector officials to have pre-scheduled meetings with those technology providers that can support with the digital government infrastructure, cloud services, digital ID, electronic procurement, cybersecurity & data protection, artificial intelligence, financial services and integrated management systems.

Uganda is prioritizing e-government as a core strategy to enhance productivity, competitiveness, and citizen services, as part of accelerating the adoption of digital technologies and the creation of online platforms like the Uganda e-Citizen

Portal for tasks such as tax payments and passport applications. African countries, likewise, are rapidly advancing digital transformation efforts, with governments leveraging technology to improve service delivery, enhance transparency, and boost economic growth.

Uganda is proud to be the host of the 4th DGA Summit and to meet the success of the previous editions, we fully intend to achieve a record number of ministers and senior officials participating from across Africa. We must work as closely as possible with best-in-class solution providers with this unique meetings-based format for the event and look forward to welcoming you to Uganda in 2026.

Thank you and best regards.

Dr. Chris Baryomunsi (MP)

MINISTER OF ICT AND NATIONAL GUIDANCE
